# Annual Requirements

Town of Ludlow Page
<ul> <li>Annual opportunity for public participation in review and implementation of SWMP</li> <li>Comply with State Public Notice requirements</li> </ul>
Keep records relating to the permit available for 5 years and make available to the public
Properly store and dispose of catch basin cleanings and street sweepings so they do not discharge to receiving waters
Annual training to employees involved in IDDE program
✓ All curbed roadways have been swept a minimum of one time per year
Bacteria/ Pathogens (Combination of Impaired Waters Requirements and TMDL Requirements as Applicable)
Annual Requirements
Public Education and Outreach*
Annual message encouraging the proper management of pet waste, including noting any existing ordinances where appropriate
Permittee or its agents disseminate educational material to dog owners at the time of issuance or renewal of dog license, or other appropriate time
Provide information to owners of septic systems about proper maintenance in any catchment that discharges to a water body impaired for bacteria
* Public education messages can be combined with other public education requirements as applicable (see Appendix H and F for more information)
Nitrogen (Combination of Impaired Waters Requirements and TMDL Requirements as Applicable)
Annual Requirements
Public Education and Outreach*  Distribute an annual message in the spring (April/May) that encourages the proper use and disposal of grass clippings and encourages the proper use of slow-release fertilizers
Distribute an annual message in the summer (June/July) encouraging the proper management of pet waste, including noting any existing ordinances where appropriate
Distribute an annual message in the fall (August/September/October) encouraging the proper disposal of leaf litter
* Public education messages can be combined with other public education requirements as applicable (see Appendix H and F for more information)
Good Housekeeping and Pollution Prevention for Permittee Owned Operations  Increase street sweeping frequency of all municipal owned streets and parking lots subject to Permit part 2.3.7.a.iii.(c) to a minimum of two times per year (spring and fall)
Potential structural BMPs
Any structural BMPs listed in Table 3 of Attachment 1 to Appendix H already existing or installed in the regulated area by the permittee or its agents shall be tracked and the permittee shall estimate the introgen removal by the BMP consistent with Attachment 1 to Appendix H. Document the BMP type, total area treated by the BMP, the design storage volume of the BMP and the estimated nitrogen removed in mass per year by the BMP in each each annual report

Phosphorus (Combination of Impaired Waters Requirements and TMDL Requirements as Applicable)

### **Annual Requirements**

Public Education and Outreach\* Distribute an annual message in the spring (April/May) that encourages the proper use and disposal of grass clippings and encourages the proper use of slow-release and phosphorus-free fertilizers Distribute an annual message in the summer (June/July) encouraging the proper management of pet waste, including noting any existing ordinances where appropriate Distribute an annual message in the fall (August/September/October) encouraging the proper disposal of leaf litter \* Public education messages can be combined with other public education requirements as applicable (see Appendix H and F for more information) Good Housekeeping and Pollution Prevention for Permittee Owned Operations Increase street sweeping frequency of all municipal owned streets and parking lots subject to Permit part 2.3.7.a,iii.(c) to a minimum of two times per year (spring and fall) Potential structural BMPs Any structural BMPs listed in Attachment 3 to Appendix F already existing or installed in the regulated area by the permittee or its agents shall be tracked and the permittee shall estimate the phosphorus removal by the BMP consistent with Attachment 1 to Appendix H. Document the BMP type, total area treated by the BMP, the design storage volume of the BMP and the estimated phosphorus removed in

### Lake and Pond Phosphorus TMDL

✓ Begin Phase 1 Lake Phosphorus Control Plan (LPCP)

mass per year by the BMP in each each annual report

Use the box below to input additional details on any unchecked boxes above or any additional information you would like to share as part of your self assessment:

In regards to public review of the SWMP, it is currently posted online which satisfies the MA Small MS4 Permit requirements for public participation. The SWMP currently states that a notice is to be posted to a DPW Agenda. This is no longer necessary and will be removed from the SWMP and updated in the following yearly reports.

Currently, the town sweeps all streets and parking lots, curbed and uncurbed, once per year. Streets in critical areas and in the downtown area are swept twice per year. The Town's street sweeping schedule will be updated to include sweeping of Town-owned parking lots twice per year.

The annual message in the fall encouraging the proper disposal of leaf litter will occur this October. It will be done through the Town of Ludlow's cable access channel. An informational flyer is posted on the Town website, for residents, regarding proper disposal of leaf litter.

Town-Owned BMPs from Attachment 3 to Appendix F will be noted and the phosphorus/nitrogen removal will be tracked. The Town of Ludlow is aware of this measure and progress will be updated in the following annual report.

# Part III: Receiving Waters/Impaired Waters/TMDL

Have you made any changes to your lists of receiving waters, outfalls, or impairments since the NOI was submitted?
Yes □ No 🗹
If yes, describe below, including any relevant impairments or TMDLs:
N/A

Message Date(s):

# Part IV: Minimum Control Measures

Please fill out all of the metrics below. If applicable, include in the description who completed the task if completed by a third party.

## **MCM1: Public Education**

Number of educational messages completed during the reporting period: 20

Below, report on the educational messages completed during the first year. For the measurable goal(s) please describe the method/measures used to assess the overall effectiveness of the educational program.				
BMP: Pollution Prevention for Businesses  Message Description and Distribution Method:  Post pollution prevention document for businesses on Town website.				
Targeted Audience: Businesses, institutions and commercial facilities				
Responsible Department/Parties: DPW Operations				
Measurable Goal(s): This document has been posted on the Town of Ludlow website, under the Department of Public Works Additional Information.				
Message Date(s): June 2019				
Message Completed for: Appendix F Requirements ☐ Appendix H Requirements ☐				
Was this message different than what was proposed in your NOI? Yes ☐ No ✓ If yes, describe why the change was made:				
BMP:Stormwater Management for Developers  Message Description and Distribution Method:  Post Stormwater Management for Developers document on Town website.				
Targeted Audience: Developers (construction)				
Responsible Department/Parties: DPW Operations				
Measurable Goal(s):				
This document has been posted on the Town of Ludlow website, under the Department of Public Works Additional Information.

## MCM2: Public Participation

Describe the opportunity provided for public involvement in the development of the Stormwater Management Program (SWMP) during the reporting period:

The Town of Ludlow's SWMP has been posted to the town website for public review. There have been no updates to the SWMP during this reporting period.

Was this opportunity different than what was proposed in your NOI? Yes □ No ☑

Describe any other public involvement or participation opportunities conducted during the reporting period: Future goals for the Town involving the public, include: holding a public cleanup in the Spring of every reporting year, and documentation of any public discussions/comments about the stormwater bylaws or new requirements. These opportunities are from both the NOI and SWMP documents.

Our municipality participated in the Massachusetts Statewide Municipal Stormwater Coalition (Statewide Coalition). The Statewide Coalition presented on the Think Blue Massachusetts public awareness campaign and regional collaboration on stormwater at the following public events:

- -Metrowest/495 Partnership (October 4, 2018)
- -MetroWest Stormwater Roundtable hosted by MetroWest Regional Collaborative (MWRC)
- -Metropolitan Area Planning Council (MAPC) (November 20, 2018)
- -Massachusetts Municipal Association (MMA) Meeting & Trade Show (Jan 18-19 2019)
- -New England Water Environment Association Annual Conference (Jan 28 2019)
- -Massachusetts Association of Conversation Commissions Annual Conference (March 2, 2019)
- -New England American Public Works Association Spring Conference (April 17, 2019)
- -Ecotarium Earth Day activities (April 16-19 2019)
- -New England Water Environment Association Spring Meeting (June 4, 2019)

### MCM3: Illicit Discharge Detection and Elimination (IDDE)

### Sanitary Sewer Overflows (SSOs)

Below, report on the number of SSOs identified in the MS4 system and removed during this reporting period.

Number of SSOs identified: 0

Number of SSOs removed: 0

Below, report on the total number of SSOs identified in the MS4 system and removed to date. At a minimum, report SSOs identified since 2013.

Total number of SSOs identified: 12

Total number of SSOs removed: 12

### MS4 System Mapping

Describe the status of your MS4 map, including any progress made during the reporting period (phase I map due in year 2):

MS4 map has been completed and is attached to the IDDE Document.

### **Screening of Outfalls/Interconnections**

If conducted, please submit any outfall monitoring results from this reporting period. Outfall monitoring results should include the date, outfall/interconnection identifier, location, weather conditions at time of sampling, precipitation in previous 48 hours, field screening parameter results, and results from all analyses.

	$\cup$	The outfall	screening	data	is attac	hed to	the	email	su	bmissioi	a
--	--------	-------------	-----------	------	----------	--------	-----	-------	----	----------	---

O The outfall screening data can be found at the following website:

N/A

Below, report on the number of outfalls/interconnections screened during this reporting period.

Number of outfalls screened: N/A

Below, report on the percent of total outfalls/interconnections screened to date.

Percent of total outfalls screened: N/A

### **Catchment Investigations**

If conducted, please submit all data collected during this reporting period as part of the dry and wet weather investigations. Also include the presence or absence of System Vulnerability Factors for each catchment.

O The catchment investigation data is attached to the email submission

Town of Ludlow Page O The catchment investigation data can be found at the following website: N/A Below, report on the number of catchment investigations completed during this reporting period. Number of catchment investigations completed this reporting period: N/A Below, report on the percent of catchments investigated to date. Percent of total catchments investigated: N/A Optional: Provide any additional information for clarity regarding the catchment investigations below: N/A **IDDE Progress** If illicit discharges were found, please submit a document describing work conducted over this reporting period, and cumulative to date, including location source; description of the discharge; method of discovery; date of discovery; and date of elimination, mitigation, or enforcement OR planned corrective measures and schedule of removal. O The illicit discharge removal report is attached to the email submission O The illicit discharge removal report can be found at the following website: N/A Below, report on the number of illicit discharges identified and removed, along with the volume of sewage removed during this reporting period. Number of illicit discharges identified: N/A Number of illicit discharges removed: N/A Estimated volume of sewage removed: N/A [UNITS] Below, report on the total number of illicit discharges identified and removed to date. At a minimum, report on Total number of illicit discharges identified: N/A Total number of illicit discharges removed: N/A

the number of illicit discharges identified and removed since the effective date of the permit.

Optional: Provide any additional information for clarity regarding illicit discharges identified, removed, or planned to be removed below:

N/A

### **Employee Training**

Describe the frequency and type of employee training conducted during the reporting period:

This reporting period, the SWMP Team Coordinator held a team training and reviewed the following video: https://www.youtube.com/watch?v=DSLjLJh Voc

This training will happen annually and updates will be recorded in the following annual report.

### MCM4: Construction Site Stormwater Runoff Control

Below, report on the construction site plan reviews, inspections, and enforcement actions completed during this reporting period.

Number of site plan reviews completed: 11

Number of inspections completed: 11

Number of enforcement actions taken: 0

# MCM5: Post-Construction Stormwater Management in New Development and Redevelopment

### **Ordinance Development**

Describe the status of the post-construction ordinance required to be complete in year 2 of the permit term:

This ordinance was established before MS4 permitting began. No updates have been made.

#### **As-built Drawings**

Describe the status of the measures the MS4 has utilized to require the submission of as-built drawings and ensure long term operation and maintenance of completed construction sites required to be complete in year 2 of the permit term:

The town of Ludlow currently requires as-built submissions for all subdivision projects. Expanding this requirement to satisfy all construction projects will be addressed and noted in future annual reports.

### Street Design and Parking Lots Report

Describe the status of the street design and parking lots assessment due in year 4 of the permit term, including any planned or completed changes to local regulations and guidelines:

In progress. Report follow-up will be included in the next annual report.

### Green Infrastructure Report

Describe the status of the green infrastructure report due in year 4 of the permit term, including the findings and progress towards making the practice allowable:

In progress. Report follow-up will be included in the next annual report.

### **Retrofit Properties Inventory**

Describe the status of the inventory, due in year 4 of the permit term, of permittee-owned properties that could be modified or retrofitted with BMPs to mitigate impervious areas and report on any properties that have been modified or retrofitted:

In progress. Report follow-up will be included in the next annual report.

## MCM6: Good Housekeeping

### Catch Basin Cleaning

Describe the status of the catch basin cleaning optimization plan:

Plan has been established and implemented. It is within the SWMP document.

If complete, attach the catch basin cleaning optimization plan or the schedule to gather information to develop the optimization plan:

- O The catch basin cleaning optimization plan or schedule is attached to the email submission
- The catch basin cleaning optimization plan or schedule can be found at the following website:

In the SWMP MCM 6 BMP 5

http://www.ludlow.ma.us/reports/dpw/stormwater/stormwater mgmnt plan-062819.pdf

Below, report on the number of catch basins inspected and cleaned, along with the total volume of material removed from the catch basins during this reporting period.

Number of catch basins inspected: 0

Number of catch basins cleaned: 13

Total volume or mass of material removed from all catch basins: 7

[CY]

2,404

### If applicable:

Report on the actions taken if a catch basin sump is more than 50% full during two consecutive routine inspections/cleaning events:

This has not been encountered during this reporting period.

### Street Sweeping

Describe the status of the written procedures for sweeping streets and municipal-owned lots:

Currently, the town sweeps all streets and parking lots, curbed and uncurbed, once per year. Streets in critical areas and in the downtown area are swept twice per year. The Town's street sweeping schedule will be updated to include sweeping of Town-owned parking lots twice per year.

Report on street sweeping completed during the reporting period using one of the three metrics below.

• Number of miles cleaned: 140

O Volume of material removed: 900

[CY]

O Weight of material removed: 1215

[TONS]

### If applicable:

For rural uncurbed roadways with no catch basins, describe the progress of the inspection, documentation, and targeted sweeping plan:

Rural uncurbed roadways are swept once per year. If the road is within a high TMDL concentration zone, it will be swept twice per year.

### Winter Road Maintenance

Describe the status of the written procedures for winter road maintenance including the storage of salt and sand:

Winter road maintenance Standard Operating Procedures have been completed. These include: inventory of equipment used for salting/plowing, sand, salt, anti-icing, and pre-wetting quantities, and operating procedures for these applications.

### **Inventory of Permittee-Owned Properties**

Describe the status of the inventory, due in year 2 of the permit term, of permittee-owned properties, including parks and open spaces, buildings and facilities, and vehicles and equipment, and include any updates:

The current inventory the Town of Ludlow has for permittee-owned properties includes: DPW equipment/vehicles and parks/open spaces. Inventory of other pertmittee-owned property is currently being completed and will be reported in the following reporting period.

### O&M Procedures for Parks and Open Spaces, Buildings and Facilities, and Vehicles and Equipment

Describe the status of the operation and maintenance procedures, due in year 2 of the permit term, of permittee-owned properties (parks and open spaces, buildings and facilities, vehicles and equipment) and include maintenance activities associated with each:

O&M procedures for these permittee-owned properties are in progress and will be reported in upcoming Year 2 report.

### Stormwater Pollution Prevention Plan (SWPPP)

Describe the status of any SWPPP, due in year 2 of the permit term, for permittee-owned or operated facilities including maintenance garages, public works yards, transfer stations, and other waste handling facilities where pollutants are exposed to stormwater:

SWPPP has not been completed, but will be provided in the upcoming Year 2 annual report.
